## CNY Collaboration Day 2018

Save the date! Collaboration Day will be held Wednesday, May 23, 2018, at the Rochester Institute of Technology. Information regarding accommodations and a link for registration will be sent out shortly. As always, Collaboration Day is free of charge to CNY members' staff.

Thank you to everyone who participated in the Community Engagement Committee's topics survey! Topics to be covered this year include: shared practices for access services, e-books, and e-resources. CNY Committees will share their reports via a poster session. The Collaboration Day agenda will be shared with the community once details have been finalized.

If anyone would like to present at the poster session, please send an email to Sarah Probst ([sprobst@connectny.org](mailto:sprobst@connectny.org)) and include the topic you would like to present on. This information will then be forwarded to the Community Engagement Committee for review.

We look forward to seeing many of you at RIT in May!

## Returned Too Long & Institutional Overdue Reports

Need help with clearing up outstanding items? The "Returned Too Long" and "Institutional Overdue" reports available through INNReach can help you do just that. Checking the "Returned Too Long" report items against the institution's local catalog can help you quickly determine if an item has already been returned or if additional steps need to be taken.

An up-to-date list of daily processing contacts (and other staff members) can be located at: <http://www.connectny.org/contacts/>

If items are found to be truly missing, please refer to the policies outlined on the CNY "For Staff" page:

<http://www.connectny.org/for-staff/>

Having trouble accessing or running these reports? Email Sarah with any questions or concerns.

## Committee Update: Digitization/Sharing Projects and Rights Management Committee

On January 23<sup>rd</sup>, the Digitization Committee kicked off the CNY EADitor Pilot Project. The EADitor is software developed by ESLN/SENYLRC that allows institutions to create EAD-encoded finding aids without having to hand-tag in XML. Four institutions volunteered to be part of the pilot: Canisius College, Marist College, Medaille College, and RIT.

The pilot is slated to run for a total of 90 days during which each institution will create a total of 4 finding aids using the EADitor. The Committee will create a report detailing the findings of the pilot and any recommendations for the consortium, which will be shared with the community.

## *E-Resources Licensing Committee*

Thank you to everyone who submitted an application to become a member of the newly formed E-Resources Licensing Committee! The committee members for February 2018 – August 2019 are:

Michael Arden, USMA  
Christina Blenkle, Pace  
Kelly MacWatters, Siena  
I-Chene Tai, Le Moyne
