DVD Loan Period

Many thanks to all who participated in the CNY Catalog Cleanup and Guidelines for Bibliographic Contribution implementation over this summer! The User Experience & Metadata Committee is aware that the current loan period for DVDs is a pain point for many institutions and is working on gathering data to make a recommendation to the CNY Board of Directors for a shorter loan period. The Committee has formulated a short questionnaire that will be shared with staff at each institution by their respective Director or Dean.

Thank you in advance for your feedback!
