When the CNY Board got together in person in November 2019 at the Strategic Planning Summit, we all had dinner together. At dinner, the topic of conversation turned to talk about family recipes—especially ones made with gelatin. Well, we all laughed so hard trying to outdo each other, but we all agreed that Becky Albitz had the “best” recipes. So, folks, be sure to try Becky’s grandmother’s special Corned Beef Salad! It’s sure to be a summer favorite!

CORNED BEEF SALAD

2 pkgs lemon jello (I use sugar free)
2 ½ c. boiling water
1 can corned beef (I use ½ to 2/3 lbs. sliced corned beef from the deli, diced)
3 hard-boiled eggs, chopped
1 ½ c. mayo
2 stalks celery, chopped
1 small chopped onion
2 T diced red pepper
2 T diced green pepper
1 t horseradish

Prepare jello using boiling water (do not prepare as on package). When partially set, fold in all other ingredients. Put in 8 ½ x 11 pan. Allow to set. Serve with crackers.
REALM Information HUB

As part of the REALM Project’s Phase 1 research, Battelle has conducted a natural attenuation study to provide information on how long some commonly circulated library materials would need to be quarantined prior to being returned to public circulation. Testing was conducted by applying the virulent SARS-CoV-2 virus (the virus that causes COVID-19) on five materials held at standard room temperature and humidity conditions. The materials tested included the following items, which were provided by Columbus Metropolitan Library:

- Hardback book cover (buckram cloth)
- Softback book cover
- Plain paper pages inside a closed book
- Plastic book covering (biaxially oriented polyester film)
- DVD case

Results show that the SARS-CoV-2 virus was not detectable on the materials after three days of quarantine. The evaluation demonstrates that standard office temperature and relative humidity conditions typically achievable by any air-conditioned office space provide an environment that allows for the natural attenuation of SARS-CoV-2 present on these common materials after three days of quarantine.

Phase II testing will be reported at the end of July 2020.
CALENDAR

JULY 4: Independence Day
JULY 14: Nancy Kirkpatrick, OHIOnet Lecture
AUGUST 11: OER & Copyright with Cole Adams
AUGUST 13: Water Cooler Chat
SEPTEMBER 7: Labor Day
OCTOBER 21: OER Workshop

WATER COOLER chat session

Join us for an informal virtual gathering to check-in, discuss re-opening at your campus library, and see how we’re all doing in this "new normal".
